

Yash Nawgiri

Full Stack Developer

+91 95116xxxxx | yashnaxxx@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Profile Summary

Mechanical Engineering graduate transitioning into tech with a strong foundation in problem-solving and engineering principles. Proficient in technologies like **React**, **Node.js**, **Express** and **MongoDB**. Passionate about building efficient, user-focused applications and eager to contribute to impactful tech solutions.

Skills

OS: Windows, Basics of Linux commands

Frontend Development: React.js, Next.js, HTML, CSS, JavaScript, Tailwind CSS, Material-UI

Backend Development: Express.js, Node.js, Mongoose, NextJs

Database: MongoDB, MySQL

Tools: Git, Postman, Render, Netlify, REST, Vercel

Experience

Sangale Agro Food Processing [Intern]

[Jan' 23-Jun' 23]

- Improved industrial production line efficiency by 15% through detailed analysis of machine operations (e.g., pre-cleaners, superfine cleaners, gravity separators), troubleshooting errors, and gaining hands-on experience in machine handling and technical problem-solving.

Projects

Medify [[LINK](#)] (Medical Centre Slot Booking Platform)

Jul'22

Skills: React.js, React Router, Axios/Fetch API, Swiper, Tailwind CSS, localStorage, Vercel, GitHub.

- Built a responsive React web application enabling users to search and book appointments across 50+ states and thousands of cities, improving search efficiency by 30% using dynamic API-based dropdowns.
- Implemented a calendar-based booking system supporting appointment scheduling up to 7 days in advance, processing bookings for over 100+ medical centers with real-time data.
- Deployed the application on Vercel, achieving 99% uptime and utilizing localStorage to persist user data, enhancing user retention by 20%

QKart Full Stack [[LINK](#)] (E-commerce website)

Nov'23

Skills: MongoDB, Express, React, NodeJs, Debouncing, Local Storage, React Hooks, Mongoose, ES6, Material UI, Hashing, Keyword Search, JWT Tokens, MongoDB Atlas, Unit Testing, Postman

- Spearheaded the implementation of core logic for authentication, shopping cart, and checkout
- Orchestrated the integration of REST API, delivering a substantial 15% reduction in page load times.
- Implementing multiple schemes and validating through comprehensive tests
- Established secure API endpoints, achieving an outstanding JWT token authentication success rate of 98%.

QTify [[LINK](#)] (Music Website)

Aug'22

Skills: ReactJS, Module-scoped CSS, flexbox, Material UI, Swiper, API Integration, Vercel, Figma

- Developed a feature-rich song browsing application using ReactJS, integrating Material UI and Swiper for a seamless user interface and experience.
- Implemented a dynamic and responsive UI with reusable components such as Cards, Carousels, and Buttons, ensuring consistency and efficiency across the application.
- Created an intuitive genre-based song filtering system using customized Material-UI Tabs and integrated REST APIs for data fetching and error handling.
- Deployed the QTify application to Vercel, showcasing expertise in continuous deployment and cloud-based hosting solutions

QTrip Dynamic [[LINK](#)] (Travel Website)

Jun' 22

Skills: HTML, CSS, JavaScript, HTTP, REST, DOM Manipulation, Event Handling, Deployment using Render, cURL, JSON

- Constructed web pages using HTML, CSS, Bootstrap, and JavaScript
- Improved UI/UX of the website with multi-select filters, image carousels, and conditional rendering of page elements
- Utilized local storage to persist user preference at client-side and facilitated reservation form submission using fetch API
- Deployed the website using Netlify for Frontend and Render for Backend

Education

Crio.do : Fellowship in Software Development - Full-Stack Specialization

[Apr' 23 - Jun' 24]

B.Tech | Mechanical Engineering | Mit Aurangabad - CGPA: 7.9

[2020 - 2023]
